Core Parts Assembly

1

Toe Kick & End Panels

- Use the install tool #52121 to attach the pre-installed recessed cam locks in the toe kick to first end panel and intermediate panels.
- **NOTE:** The recessed cam locks sit flush with the top of the toe kick.

2

Back Panel

- Slide the back panel into the pre-routed grooves in the end and intermediate panels, dropping into the pre-routed groove in the toe kick.

3

Modular Top

- Use the install tool #52121 to attach the pre-installed recessed cam locks in the modular top to the end and intermediate panels. Ensure the back panel sits in the groove of the top.
- **NOTE:** The recessed cam locks sit proud of the bottom of the modular top.

4

Complete Range

- Repeat steps 1 - 3 for the entire range of shelving.

5

Shelves

- Install all shelves with desired spacing.
- **NOTE:** Base shelves receive black shelf pins #4703125000, and all other shelves receive the bronze collared shelf pin #48082.

6

Fixed Shelf

- All shelving units 60" and higher require a shelf to be attached to the end and intermediate panels with (2) brackets #52040 and screws #50042. Fixed shelf should be as close to the middle of the height as possible.

7

NOTE: Mobile unit shown; shelf lock applies to stationary outer curve shelves as well.

Shelf Lock Bracket

- All outer curve shelves require a shelf to be locked in by means of (2) shelf lock brackets #52119 and screws #52040 on the BACK shelf pin
- **NOTE:** Shelf lock brackets should be loose enough to freely rotated out of the way should shelf adjustments need to be made in the future.

design the furniture. *innovate* the space. *engage* the users.
