Shelf Details

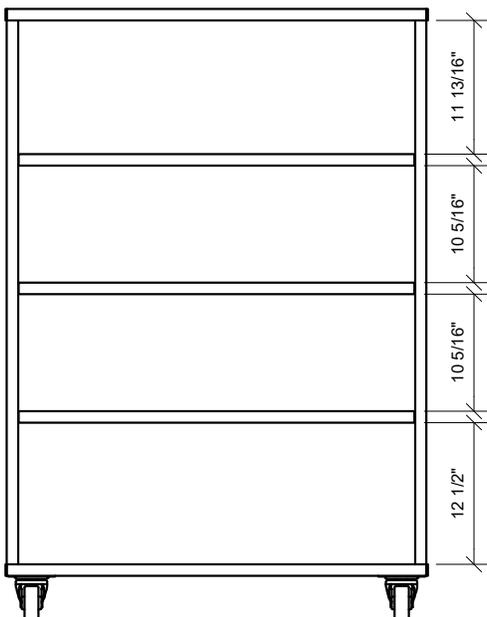

The following images are provided as a reference to show the typical spacing/details and number of shelves for each of our standard heights.

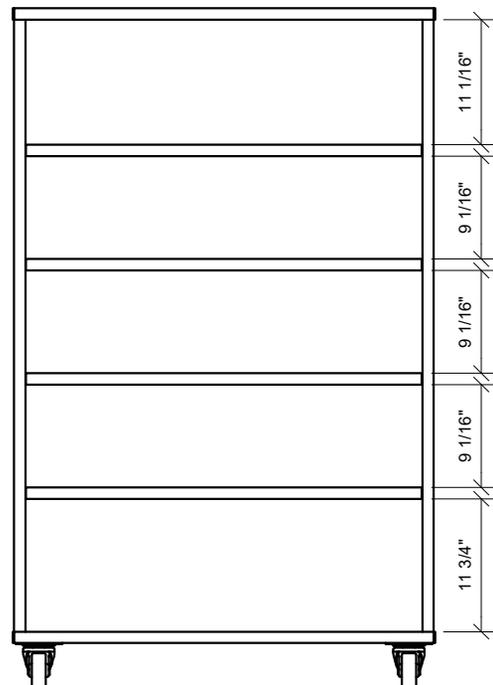

30" H Unit

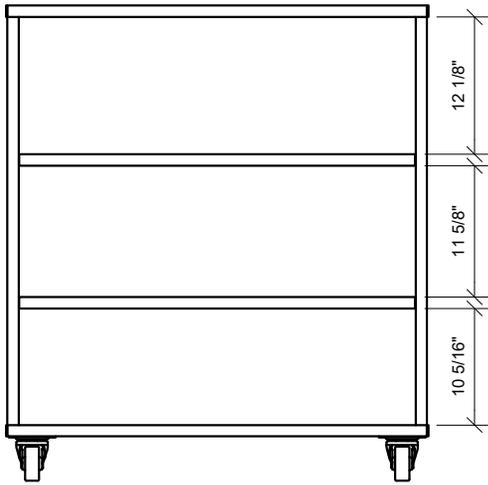

36" H Unit

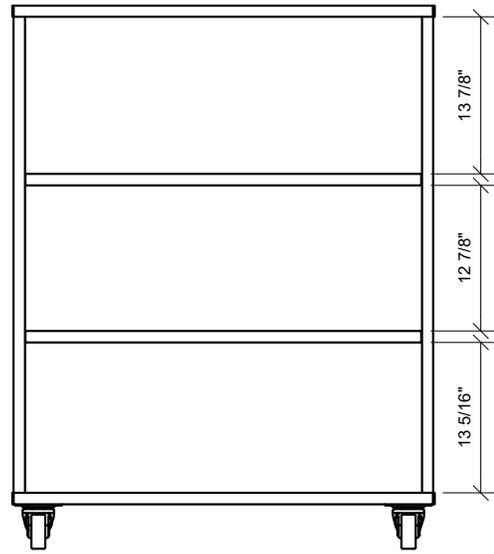

54" H Unit

60" H Unit

42" H Unit

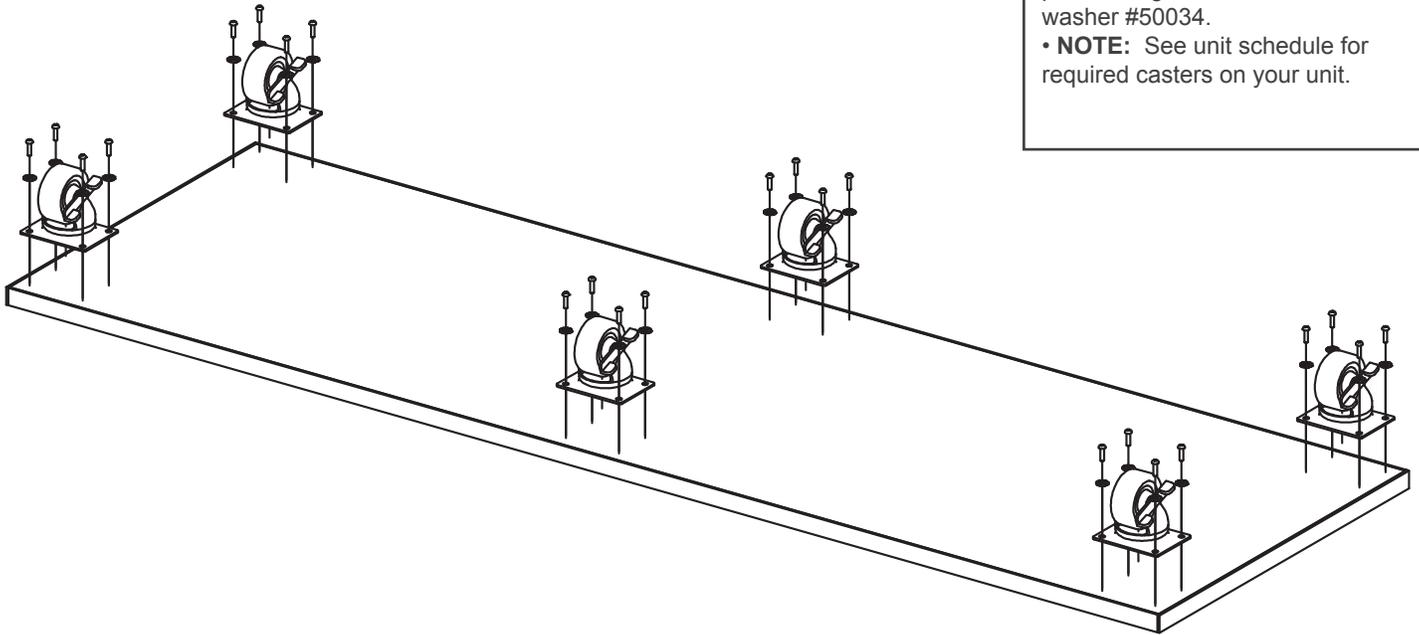

48" H Unit

Core Parts Assembly

1

Casters

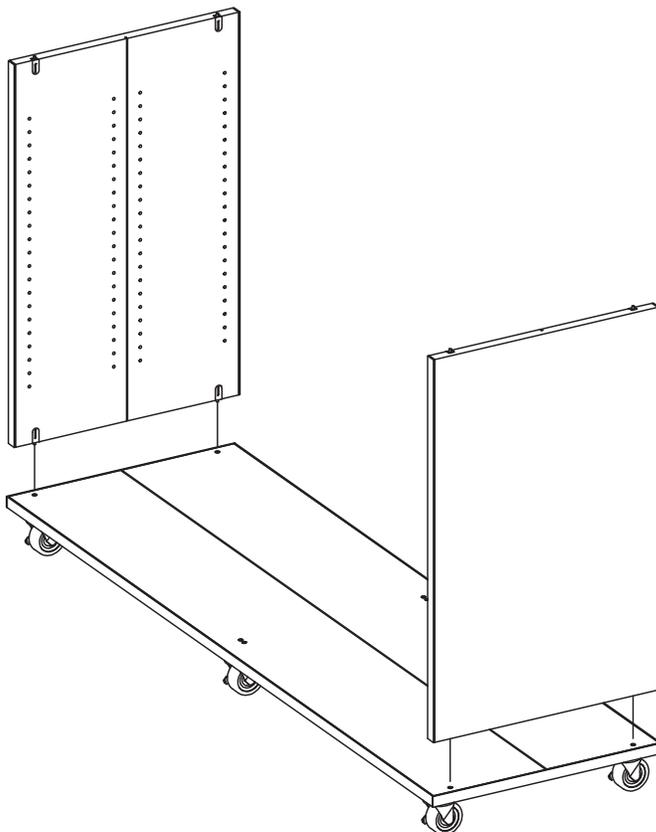

- Install casters to the bottom side without inserts of one horizontal panel using screw #50080 and star washer #50034.
- **NOTE:** See unit schedule for required casters on your unit.

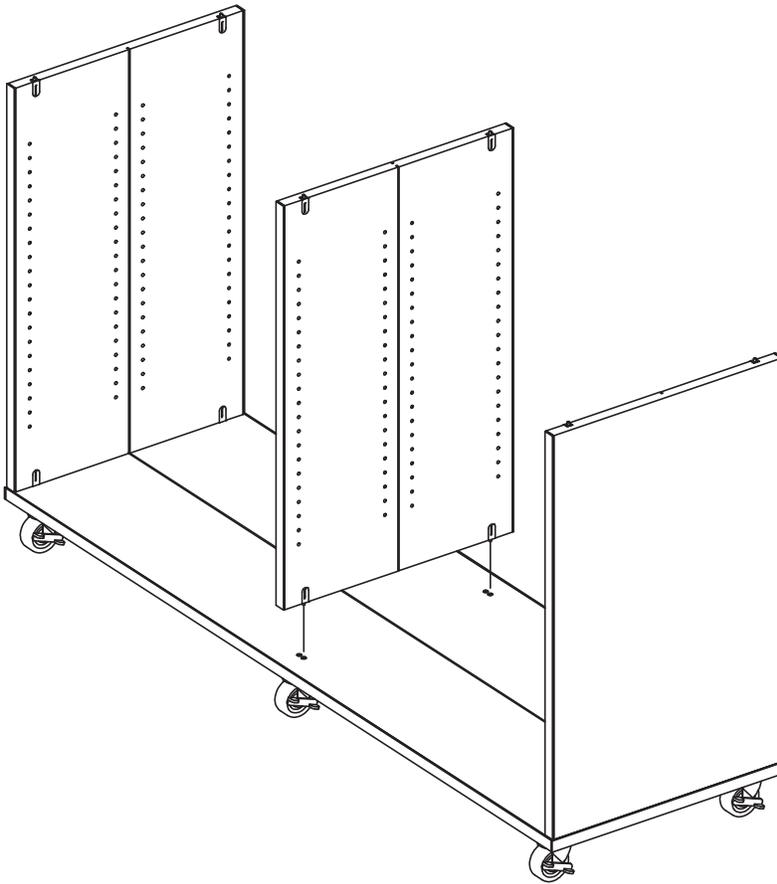

2

End Panels

- Use the install tool #52121 to attach the pre-installed recessed cam locks in the end panels to the horizontal panel with casters.

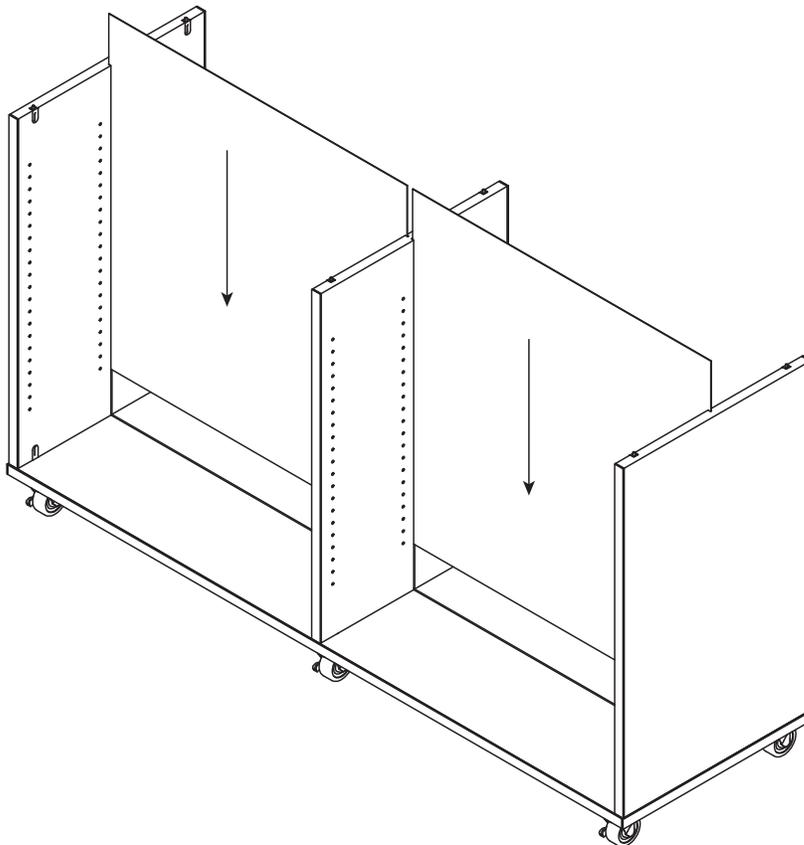

3

Intermediate Panel

- Use the install tool #52121 to attach the pre-installed recessed cam locks in the intermediate panel to the horizontal panel with casters.
- **NOTE:** Straight units 36" wide and less will not have an intermediate panel.
- **NOTE:** Intermediate panel is flippable; only 2 inserts in the horizontal panel get used. No part of either brass insert should be shown when installed correctly.

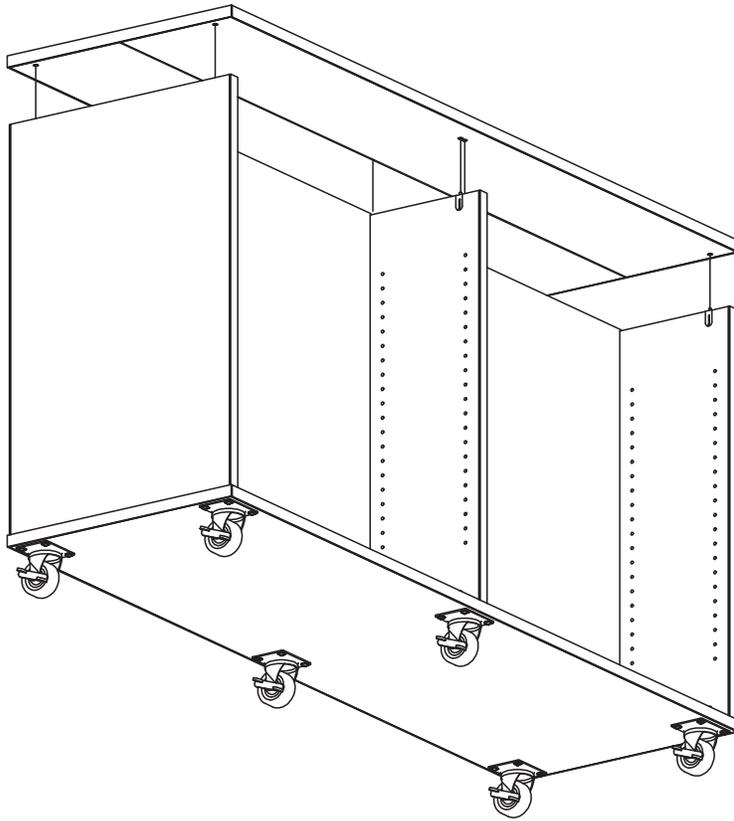

4

Back Panel(s)

- Slide the back panel(s) into the pre-routed grooves in the end and intermediate panels, dropping into the pre-routed groove in the bottom horizontal panel.

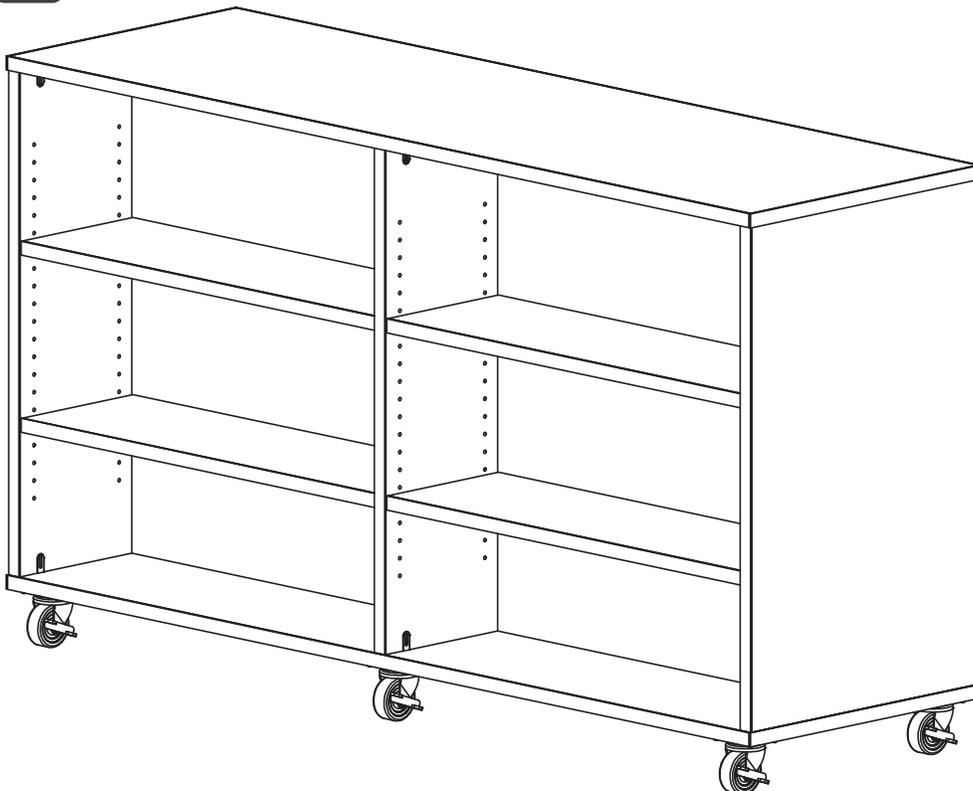

5

Top Horizontal Panel

- Use the install tool #52121 to attach the pre-installed recessed cam locks in the end panels and intermediate panel to the top horizontal panel. Ensure the back panel fits in the pre-routed groove.

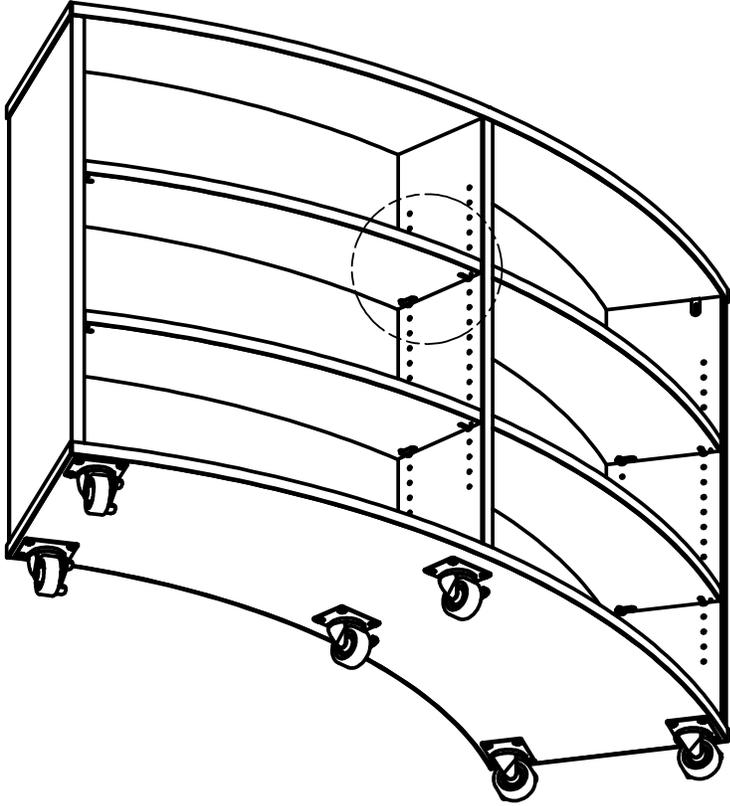

6

Shelves

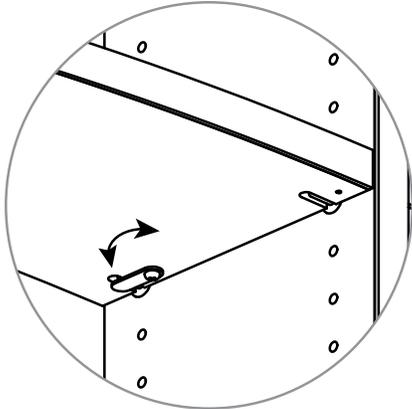

- Install all shelves with desired spacing bronze collared shelf pins #48082.

7

Shelf Lock Bracket

- All outer curve shelves require a shelf to be locked in by means of (2) shelf lock brackets #52119 and screws #52040 on the BACK shelf pin
- **NOTE:** Shelf lock brackets should be loose enough to freely rotated out of the way should shelf adjustments need to be made in the future.
