Use the guide at the bottom of this page to estimate the required yardage. LIAT takes no responsibility when additional materials must be ordered. ## Lounge

The lounge frames are constructed of puzzle cut 7/8" thick plytanium with locking dog bone joint construction that is glued and stapled.

The seat uses 8 gauge no sag sinuous springs with 4-1/2" thick high density polyurethane foam.

The backs use 11 gauge no sag sinuous springs with 2-1/2" thick high density polyurethane foam.

The arms are covered with 1-1/2" thick high density polyurethane foam.

## Electrical / Power

The standard built-in power upgrade option shall be an all metal flush clamp mounted power and charging solution with 1 power and 2 USB 2.1A charging ports and a 108" cord length, constructed with 12A, 120 VAC spill resistant receptacles. A 6ft. electrical cord comes with the unit. The unit shall be finished in a Metallic Silver powder coat.

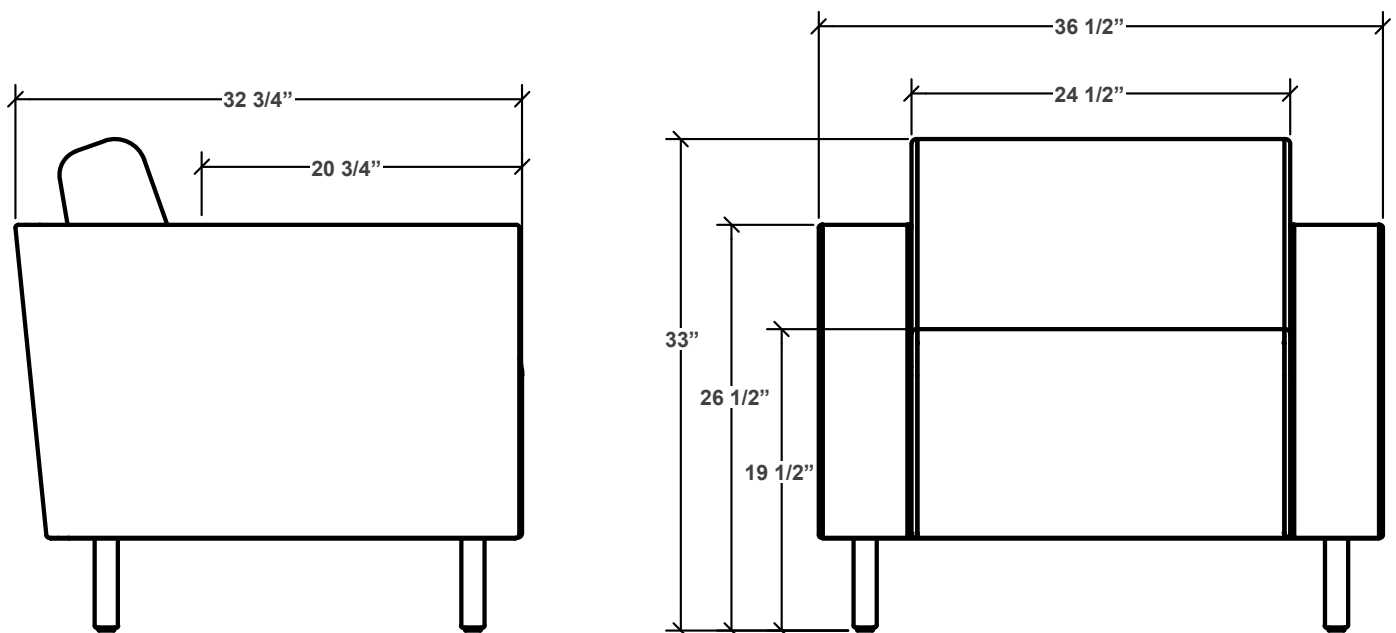

## Tablet Arms

Removable tablet arms are available in several styles. Tablet arms revolve 360 degrees. Tablets are available in either laminate or solid wood. Laminate is the more durable of the two surfaces; wood may show scratches or marking from objects used for various tasks.

Vance tablet arms measure 13-3/4" wide x 20" long and are located 8-3/4" from the top of the seat.

Tablet arms are not designed to be used for sitting, leaning, or supporting heavy objects.

Good judgment of use and risk of breakage will be your responsibility.
