LIAT

Your new favorite kind of privacy.

Shelby allows you to step into your new favorite kind of privacy. The comfortable fully upholstered seat and back give you the support you need, paired with the option for nearly 360 degrees of privacy with frosted acrylic dividers allowing light to pass through for the focus you desire.

The only problem you'll have is not wanting to leave.

After all, there's no need to with the rotating laminate work surface and power options keeping your devices supported and charged for as long as you need.

COLLABORATE IN THE OPEN

Privacy isn't always desired, and Shelby has an answer for that. Lower the surround to armrest height with no dividers, and settle in to the new style of collaboration with a little more comfort and some extra space between you. You'll never want to meet in the conference room again.

READY FOR TOUCHDOWN

The way we use spaces continues to change in both education and commercial environments. Whether you're stopping in for a few hours to finish up that presentation, or just a few minutes to get caught up on emails, Shelby adapts to the varying needs of an every day space by providing the tools and support you need in a temporary touchdown workstation.

CONVENIENT STAY HAVEN

Sometimes you just need to get away – whether to focus, take a break, or simply get a change of scenery. Shelby allows you to get away, without actually getting away, by providing everything you need in a small and manageable footprint.
